Dear Mr. Baboolal

RE: REQUEST FOR ELECTRICITY SUPPLY AT RAPHEAL ROAD, LA QUESA VILLAGE, FREEPORT – (CA 2370/13)

Reference is made to your request for an electricity supply at the above address. We wish to confirm that the Commission will provide you with the requested supply under the following conditions:

1. The supply will be at **115/230 Volts, 1 phase, 3 wire, 60 Hz** with a maximum anticipated demand of **36 kVA**. Any damage done to the Commission's equipment or that of other customers, due to the above maximum KVA demand being exceeded will be to your account.
2. The point of supply will be via pole #9 located on Rapheal Road, La Quesa Village, Freeport.
3. (a) It is agreed that there will be one (1) meter and the energy consumed will be billed under our Commercial Rate 'B' tariff structure.

The meter must be accessible to our personnel at all times and must not be tampered with. Your electrical contractor is not authorized to remove, relocate or interfere with the meters in any way.

- (b) Provision for metering must be made in accordance with the Commission's booklet 'Wiring for Light and Power'.
4. The Commission's booklet 'Wiring for Light and Power' outlines the requirements, standards and general information for the use of the electricity supply in Trinidad and Tobago and is provided for your information and guidance.
